RETURNED SOLDIERS 1918 (016)

Box 592, Midland. Ont.

30th December. 1918

Sir Robert Falconer,

Toronto University,

Toronto. Ont.

Dear Sir;-

I am writing you for advice on behalf of my son, Lieut.George Fraser Bryant. He joined the S.P.S. in October, 1914,in the 1918 class,taking up the Electrical Engineering course. He went overseas at the beginning of January,1916, with the first contingent of thirty-one officers of the C.O.T.C. joining the Imperial Army on his arrival in England. He was wounded at the battle of Cambrai at end of November,1917,his right elbow being shattered,and he has only just been released from an English hospital. The doctors have saved for him a very useful arm,and now he is anxious to resume his studies. He has been in correspondence with the Minister of Labor in England with reference to taking a University course over there, but his inclinations are to come back to Canada,and complete his course at Toronto University,taking his second year over again. He writed very well again with his right hand,and says that he can manage the draughting work,and he naturally thinks that he could command a better position in the world if he took his degree. His age is 28 years on the 29th November last. If he came back in the Spring,could he take up a summer course in Canada,so as to save as much time as possible?

I shall be very grateful if you will have time to give this matter your best consideration,so that I can advise

him at an early date.

Meantime, Believe me to be,

Yours faithfully,

Oliver Mowat
